ERARTA Studio

Building AI-powered consumer products that simplify everyday life

8 AI Products

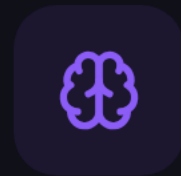

AI-First Approach

Full-Stack Studio

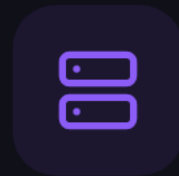

Our Vision

We build a portfolio of AI-powered consumer products — from mobile apps to ML services — under one roof.

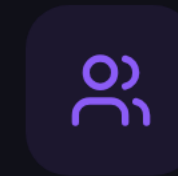

AI-First

Every product starts with an AI core — generative models, computer vision, and NLP integrated from day one.

Full-Stack Studio

From mobile apps to Kubernetes infrastructure. Design, development, ML, and DevOps — all in-house.

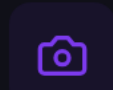

Consumer Focus

We target everyday problems — nutrition, photo editing, content moderation, finance — and solve them with AI.
